

Seeing Patients Unconscious Bias Health

methods for gaining insight into ourselves - 1494 out of awareness) and good-caring-achieving drives (mostly in our awareness) are constantly competing for expression in all of us. regardless of whether our basic nature is good or evil, it is obvious that many cognitive processes occur without our awareness, e.g. our unique perception of the situation, our specific memories brought to **cultural competence in healthcare** - - **rnÃ,Â®** - interpretation of symptoms. multiple strategies are available to address the effects of unconscious bias. bias training: evidence suggests that when healthcare providers receive training on cultural bias, the heightened awareness itself reduces bias.
